Department of Computer Science and Engineering  
Software Engineering Lab (CS29006)

Instructor: Prof. Sudip Misra

Assignment 5: Software Requirements Specification

Time: 2:00 pm - 4:55 pm

Date : 06/03/2019

**Instructions for submission**

- Please submit the assignment with following naming scheme:

$P < Project\_ID > - < Roll\_1 > - < Roll\_2 > \_SRS.docx$

e.g.,  $P3\_17CS10002\_17CS10004\_SRS.docx$

- Submit the SRS latest by **4:55 pm** on **06/03/2019**.

- 
1. Check the **Project Allocation** document to find the project assigned to you and your team-mate. Go through the project document. Points mentioned in the project document are the basic guidelines for the application. It is expected from you that you are going add more features and make the application more useful and interesting. Work together with your teammate and prepare the **Software Requirements Specification (SRS)** of the project assigned to you. Follow the **IEEE template** for the SRS. Ensure that **both** you and your teammate submit the SRS to the Moodle system. If you have any query, contact your respective mentor.
